About Us

.....
We Provide Best ENT, Implants & Equipments
.....

Why Do We Exist?

At DAC Meditech, We believe in challenging the fast-changing ENT instruments, Equipments & Implants industries. We believe in thinking differently.

How We Do?

We challenge the fast-changing world by providing world-class ENT instruments, Equipments & Implants to the Doctors who believe in bringing the change in the society by human efforts.

What We Do?

We just happen to manufacture the great ENT Instruments, Equipments & Implants to revolutionize the medical industry.

INSTRUMENTS - CARE

Since the E.N.T. surgical instruments are precision in nature, you are requested to follow the undermentioned instructions for maintaining its delicate and finish properties.

CLEANING

Distilled or mineral water should be used to decontaminate & rinsed the instruments. For removal of contaminated stuck on the surface use soft bristled brush or ultrasonic cleaner.

STERILIZATION

Use distilled water in autoclave. Autoclave should be rust proof from inside otherwise rust may transfer by steam. During dry heat sterilization the temperature should be fully controlled otherwise instrument's hardness may get effected.

STORAGE

Instruments should be fully dried by hair dryer or in oven with temperature at 70°C - 80°C. Medical grade oil can be used on serration, joints, locks, hinges & knurled parts of the instruments.

The company reserve the right to change the shapes/specifications of the instruments without prior notice.

Specification

Head : Zoom binocular optical system
Eye pieces : SWF 15 X with ± 5 dioters
Magnification : Straight binocular tube
IPD : 55 mm - 75 mm
Field of view : 52 mm - 10 mm
Working distance : F = 200 mm
Focusing : 54 mm Manual
Coaxing Illumination :
Coaxial 54 mm field of illumination
Maximum intensity 90,000 lux (variable)
15v-150w Halogen twin bulb
Optical Fibre light guide system
Cooling by inbuilt fan system
Counter balance hydraulic swivel arm
Horizontal length of arm : 860 mm
Vertical height adjustment range : 300 to 560 mm
Rotation of arm : 320 with lock

Base : Mobile heavy floor stand on five caster lockable wheel
Easy handling and absolute stability

Power Supply : AC 220-240 volts, 50 Hz

Overall approx. Size:
800mm L x 600mm W x 1408mm H .
One drawer & 4 shelves.
Oxygen cylinder cage & I.V. Rod.
Mounted on 125mm dia casters.
Switch & Socket panel for medical
equipment.
Epoxy powder coated.
Weight 35Kg.

Electro Surgical Cautery Unit 2139

PRODUCT SPECIFICATION

ELECTROSURGICAL UNIT

Owing to our advance and latest technology, we are offering electro surgical equipment which is versatile; user convenient compact device. It is designed with all laest features which is suitable for visiting consultants, clinics, nursing home, hospitalsw and for all general surgical procedures. This particular unit provides optimum power for general surgical procedures to perform the user satisfaction.

Its is a digital display push switch control providing consistent performance for general surgical procedures and delivers optimum and reliable power. Our electro surgical equipment is extremely convenient for visiting consultants due to compact and light weight nature of the device.

STANDARD ACCESSORIES

- Monopolar Handle with cable
- Monopolar twin button Handle with cable
- Reusable Metal plate with cable
- Silicon Ruber plate with cable
- Bipolar Forceps with cable
- Monopolar Electrode 5 Nos
- Double Pedal Foot Switch for Monopolar
- Single Pedal Foot Switch for Bipolar

In Put Power Supply

Input Voltage : 180-270 V Ac
Current Fuse : 5 Amps
Power Consumption : 550 Max.

Output Control

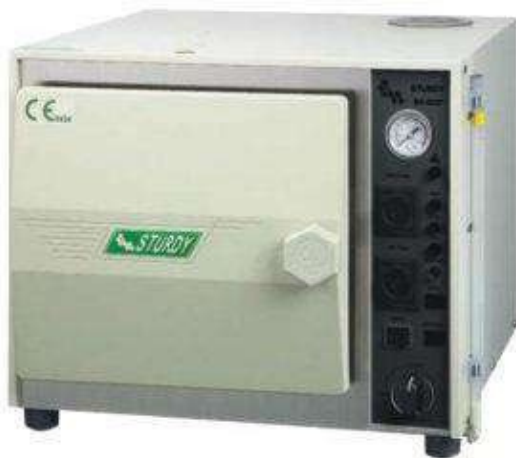

Digital display of power with LED Indicator of different modes and push switch control in all modes.

Safety Features

Unit construction : As per IEC-60601-1-2 & 60601 - 2
Protection Class : I
Unit Type : CF
Output : All floating Output

PPFM System

Measuring Frequency : 125 KHz
PPFM pad : 5-125
Non-PPFM pad cond. : Not < . 10
AUDIO LEVEL : Fix level of audio tone.
WEIGHT : 4.5 Kg
DIMENSION : 295x120x285 (LxHxW) mm

High Speed Sterilizer
2145 Model : SA-232X (16Lt.)
 Portable Type Sterilizer
 Micro-Processor Control System

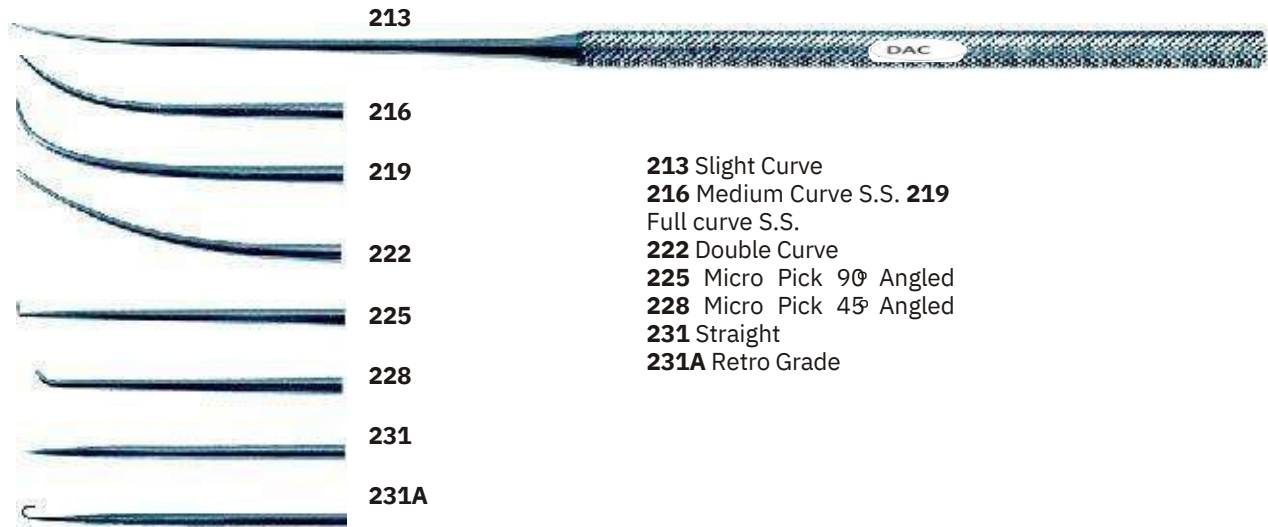

Feature :

- Wide range use: suitable for wrapped / un-wrapped in ophthalmic clinics and hospitals.
- Easy maintenance : sterilizer and the heater is made by stainless steel, So it is easy to keep clean & maintain.
- Sterilization pressure are adjustable from 0.9 to 2.1 kg/cm² (approx. 115°C - 134°C) sterilization time 4 minutes / 15 minutes/30 minutes for selection.
- Automatic control from heating up sterilization to time off. The entire sterilization process is continuously monitored by a micro-processor indication system, which indicate the program working steps.
- Low water level protection system: the electric power will be cut-off, when the water level too low.

Model No.	SA-232X
Chamber Size	Stainless Steel # 304 230mm x 390mm(D)
Chamber	Approx. 16 Ltrs.
Capacity Overall	501(W) x 406(H) x 537(D)mm
Power	220V-240V / 1.5KW (max.) / 6.5A
Consumption	# Unwrapped / Wrapped / Liquid
Using Pressure	1.34 / 0.9-2.1kg. / CM ²
Design Temperature	160
Safety Devices	Over Heat (low water) cut off switch safety valve & release valve emergency exhaust valve, door safety holder pressure control switch
Safety Approval	CE-EMC LVD, approved, CE-MDD approved Chamber designed by ASME/U.S.A. Standard
Standard Accessories	Stainless steel # 304, sterilization box / 1pc.
	Stainless steel # 304 tray / 1pc.

Note :- Also available Model : **SA-230MA / SA-260MA** Pre-Vacuum & Dry Vacuum with Microprocessor Temperature Controlled System.
